

APERTURE
Opentype fonts v1.5
©2021 Harold Lohner
All Rights Reserved

APERTURE is a special-effects font, especially designed to be difficult to read! Use for a puzzling or comic effect or to suggest an alien script that only some can read. There are outline and solid fonts that can be used separately or layered together; each includes alternate letterforms for further play with legibility.

Version 1.5 has an expanded character set.

TO USE: Type ({[or < at the start of your text and)}] or > at the end to enclose. Instead of a space between words, type a _ [underscore] to create a continuous flow. ^| or ~ can also be used instead of a space.

Non-profit, not-for-profit, charity use: You may use **APERTURE** without charge, but only with the requirement that the non-profit organization sends Harold's Fonts one example of the finished item and a receipt for a \$99 product donation.

For profit, commercial use: You can easily arrange licensing through Font Brothers, please contact stuart@fontbros.com
